MEMORANDUM FOR: Chief, Forces Division, ORR

25X1A ATTENTION: [REDACTED] Naval Systems Branch
THROUGH: Chief, Requirements Branch, Reconnaissance Group, CGS
FROM: Chief, Photographic Intelligence Division, CIA
SUBJECT: Possible Camouflage of the Kaliningrad Missile Storage Facility, USSR
REFERENCE: (a) Requirement C-RR-4-81,984
(b) CIA/PID Project 30014-5

1. This memorandum is in response to your requirement dated 5 November 1964 which requests a detailed analysis of the Kaliningrad Missile Storage Facility to determine if an attempt has been made to camouflage this facility.

25X1D 2. Reexamination of the facility on [REDACTED]
25X1D [REDACTED] reveals that the apparent changes noted in the [REDACTED] 25X1D
[REDACTED] were due to seasonal growth of vegetation and weather conditions. Mission
25X1D [REDACTED] showed a heavy snow cover in this area. The deciduous forests
were free of foliage permitting easy identification of the snow covered
storage buildings. The "fading detail and darkened color of buildings" on
25X1D [REDACTED] is obviously due to heavy foliage and low contrast imagery.
No attempt at camouflage could be observed at this facility. No attempts at
camouflage have been observed at other naval installations except at the
referenced Balaklava site.

25X1A 3. The photo analyst on this project is [REDACTED] who may be
contacted on extension 2705 should you have any further questions concerning
this project.

4. This project is considered to be complete.
